

API Card / Tooltip

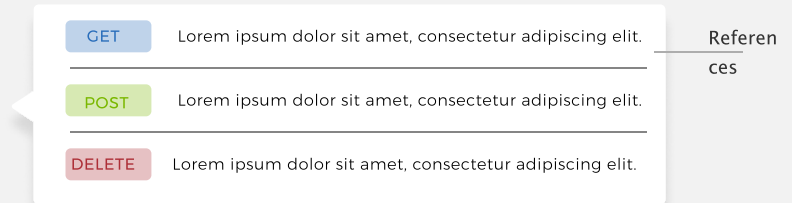

- Tool tip box provide a quick view on API Reference documentation
- The Tooltip get triggered by mouse hover action.
- Tool Tip contains 3 or more (GET-POST-Delete) information.

Product card

The product card UI includes a green 'Tag' pill, the title 'B2B Virto Ecommerce', a descriptive paragraph, three 'Tag' pills, and two 'Button CTA >' buttons. Lines connect these elements to labels: 'APi Product Title' points to the title, 'Api Product Information' points to the paragraph, and 'API Categories' points to the tags.

API card tooltip

The tooltip UI shows three API methods: 'GET' (blue), 'POST' (green), and 'DELETE' (red), each followed by a placeholder text 'Lorem ipsum dolor sit amet, consectetur adipiscing elit.'. A line connects the 'GET' method to the label 'References'.

Why

- Currently, technical users have to search for this content.
By introducing the ToolTip feature, we are aiming to reduce the actions required from user.
- Increase the findability of a suitable API
- Increase user engagement.
